

Biofinity[®] multifocal

Extraordinary visual performance at every distance.
Premium all-day comfort.

If you're over 40, your vision is starting to change. If you want a contact lens with outstanding visual performance and premium comfort, you can rely on CooperVision[®] Biofinity[®] multifocal contact lenses. They provide a remarkable balance of comfort, breathability and excellent visual clarity. And they're made with CooperVision[®] Aquaform[®] Technology, which provides 100% of the oxygen your eyes need* to help them stay healthy¹, and give your eyes natural wettability and premium comfort throughout your busy days.

 Presbyopia

The features you'll love

- Balanced Progressive[®] Technology provides multiple correction zones in each lens that are tailored to your personal prescription, to help you see clearly at all distances.
- Aquaform Technology locks in water—so you can have incredible comfort all day long—and helps your eyes stay clear and white, by delivering the oxygen your eyes need.*
- A smooth surface design with special rounded edges works enhances comfort by minimizing interaction between your lenses and your eyelids.

* During daily wear.
